

TextFields e Buttons

Prof. Dr. Fernando Sambinelli
IFSP Hortolândia

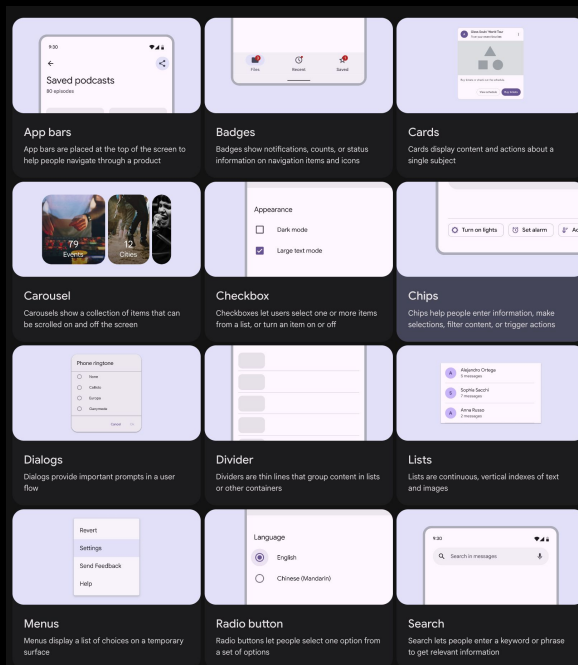

Vamos Começar

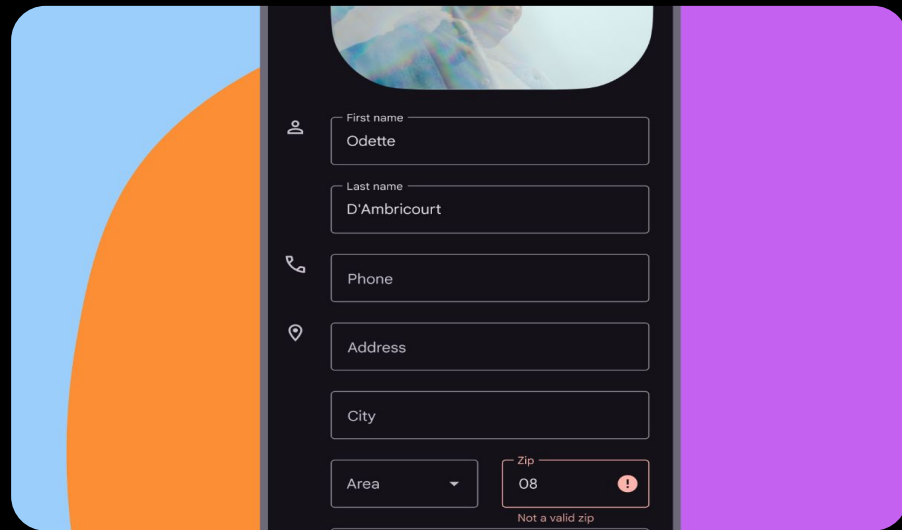

Componentes de UI Material 3

Sistema de design de código aberto do Google para criar produtos bonitos e fáceis de usar.

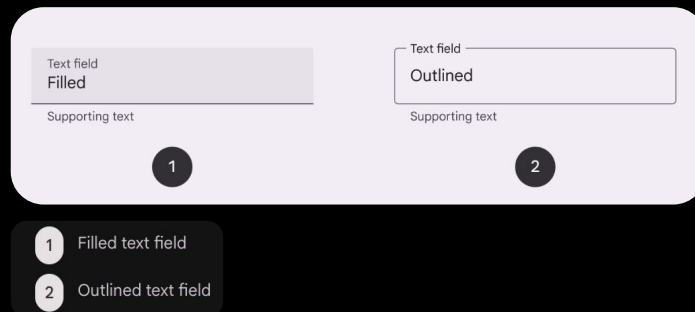

Text Fields

Os campos de texto permitem que os usuários insiram texto em uma interface de usuário.

A mobile app form with a dark background. It features several text input fields: 'First name' (filled with 'Odette'), 'Last name' (filled with 'D'Ambricourt'), 'Phone', 'Address', 'City', and 'Zip' (filled with '08'). The 'Zip' field has a red error icon and a message 'Not a valid zip' below it. There is also a dropdown menu for 'Area'. The form is flanked by a blue and orange curved shape on the left and a purple curved shape on the right.

- ✱ Dois tipos: preenchidos (*filled*) e com contorno (*outlined*).
- ✱ O estado do campo de texto (em branco, com entrada, erro, etc.) deve ser visível à primeira vista.
- ✱ Os campos de texto geralmente aparecem em formulários e caixas de diálogo.

A comparison of two text field styles. On the left, labeled '1', is a 'Filled text field' with a light gray background and a thin border. On the right, labeled '2', is an 'Outlined text field' with a white background and a thin border. Both fields have 'Supporting text' below them. The labels '1' and '2' are in circles below each field.

Exemplos de Uso

Nome

Idade

Observação

```
40 class MainActivity : ComponentActivity() {
41     @Override fun onCreate(savedInstanceState: Bundle?) {
42         super.onCreate(savedInstanceState)
43         enableEdgeToEdge()
44         setContent {
45             TextfieldsExemplosTheme {
46                 TelaPrincipal()
47             }
48         }
49     }
50 }
```

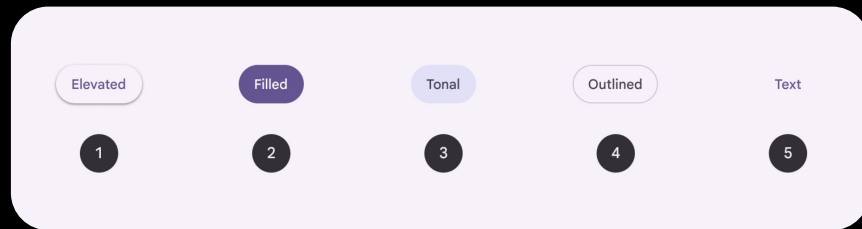

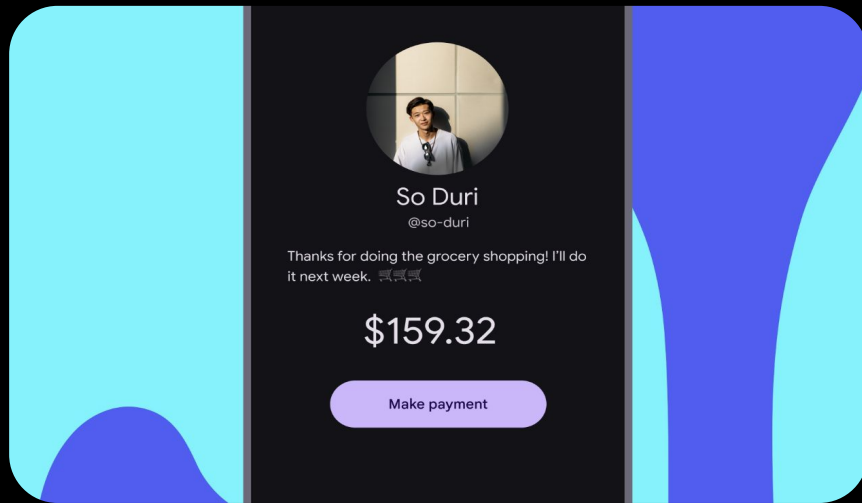

```
88 @Preview(showBackground = true)
89 @Composable
90 fun GreetingPreview() {
91     TextfieldsExemplosTheme {
92         TelaPrincipal()
93     }
94 }
```

```
42 @Composable
43 fun TelaPrincipal() {
44     var nome by remember { mutableStateOf<String>("") }
45     var idade by remember { mutableStateOf<String>("") }
46     var observacao by remember { mutableStateOf<String>("") }
47
48     Surface (
49         color = Color.LightGray,
50         modifier = Modifier.fillMaxSize()
51     ) {
52         Column(
53             modifier = Modifier
54                 .fillMaxSize()
55                 .padding(10.dp),
56             horizontalAlignment = Alignment.CenterHorizontally,
57             verticalArrangement = Arrangement.Top
58         ) {
59             OutlinedTextField(
60                 value = nome,
61                 onValueChange = { nome = it },
62                 label = { Text(text = "Nome") },
63                 placeholder = { Text(text = "Digite seu nome") },
64                 modifier = Modifier.fillMaxWidth()
65             )
66
67             OutlinedTextField(
68                 value = idade,
69                 onValueChange = { idade = it },
70                 label = { Text(text = "Idade") },
71                 placeholder = { Text(text = "Digite sua idade") },
72                 modifier = Modifier.fillMaxWidth()
73             )
74
75             Spacer(modifier = Modifier.height(8.dp))
76
77             Filled(
78                 (padrão)
79                 TextField(
80                     value = observacao,
81                     onValueChange = { observacao = it },
82                     label = { Text(text = "Observação") },
83                     placeholder = { Text(text = "Digite algo...") },
84                     modifier = Modifier.fillMaxWidth()
85                 )
86             )
87         }
88     }
89 }
```

Buttons

Os botões são responsáveis pela maioria das ações em uma interface de usuário.

- * Dois tipos: padrão e alternar (toggle)
- * Pode conter um ícone inicial opcional
- * Cinco opções de cores: elevated, filled, tonal, outlined, and text
- * Mantenha os rótulos concisos e use letras maiúsculas apenas no início da frase.

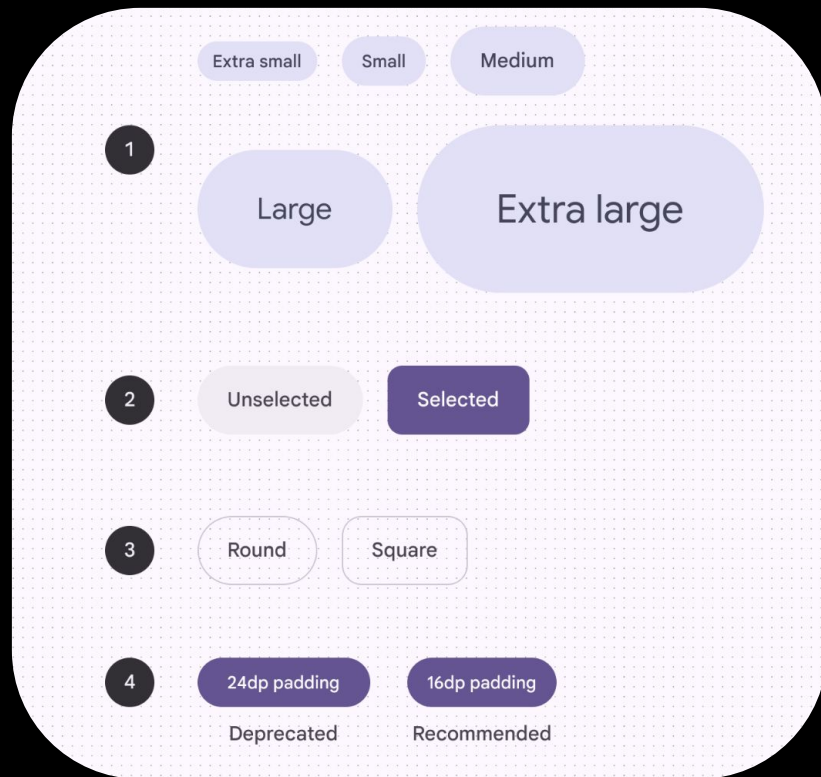

- 1 Elevated button
- 2 Filled button
- 3 Filled tonal button
- 4 Outlined button
- 5 Text button

Buttons

Os botões são responsáveis pela maioria das ações em uma interface de usuário.

- * Cinco recomendações de tamanho: extra pequeno, pequeno, médio, grande e extra grande
- * Duas opções de formato: redondo e quadrado

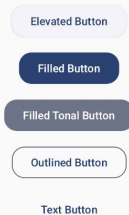

- 1 Five sizes
- 2 Toggle (selection)
- 3 Two shapes
- 4 Two small padding widths
